SERVICE BULLETIN

Bulletin No. 002

Issue Date: June 22, 2005

Product: Model J Booster Heaters

Purpose: To provide field service technicians with specific information regarding product service or operation.

Background: The following booster heater wiring diagrams are obsolete: **3, 5, 6, 7(NT), 7(WT), 11, and 13**. The following are the replacement wiring diagrams: **3A, 4(DB), 6A, 12(WT), 12(NCB), 13(NT), and 13(WT)**. There is no need to re-wire existing units in the field that utilize the obsolete diagrams.

Current Status: Effective as of June 22, 2005 all booster heaters shipped from the factory will utilize the revised wiring diagrams.

Remarks/Action: For a complete listing of the current wiring diagrams for all Hubbell booster models please download the current Hubbell O&M at <http://www.hubbellheaters.com/pdf/ModelJOM.pdf> Additionally, for a complete parts breakdown for all Hubbell booster models please download the parts breakdown at <http://www.hubbellheaters.com/pdf/J%20Model%20Part%20Breakdown.pdf>
